## **RESTRICTION RESPONSE**

COMMISSIONER FOR PATENTS ALEXANDRIA, VA 22313 SIR:

In response to the Office Action dated November 24, 2003, Applicants provisionally elect, with traverse, Group I, Claims 1-39, 45-61, 64-70, 73-102, 106, and 107 for further examination on the merits in the present application.

Applicants respectfully traverse the Restriction Requirement because the PTO has not carried forward its burden of proof to establish that searching and examining both of the noted sets of claims would be an undue burden.

In particular, MPEP § 803 states:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions. Application No. 10/050,865 Reply to Office Action dated November 24, 2003

The claims of the present invention would appear to be part of an overlapping search area.1

Accordingly, Applicants respectfully traverse the outstanding Restriction Requirement on the grounds that a search and examination of the entire application would not place a *serious* burden on the Examiner.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND, MAIER & NEUSTADT, P.C.
